Statement from the American Minister at Athens-All the Bands of Outlaws Driven from Greek Territory-The Government Affording Full Protection to Tourists.

WASHINGTON, June 2.—The American

Minister, at Athens, has communicated to the Department of State, under date of May 4, 1872, the following on this subject:

the following on this subject:

Exaggerated and false reports are constantly published by the European press concerning origandage in Greece. These erroneous statements are not unfrequently republished in American newspapers. They represent that the Kingdom outside of Athens is under brigand rule and that no traveler can with safety venture beyond the limits of this capital. To show the impression made by these publications I may state the fact that I have received several letters from American tourists inquiring whether they could visit Athens and its vicinity with safety.

lineia, who took to brigandouse in 187, In 1870 a reward of 189 drachmas was offered for his capture and
destruction.

3. Paises Sartis, from Maricadi of the province of
Outa, Turkey, who became a brigand five or six years
ago. In 1870 the same reward was offered for the Effiing of this malefactor.

At the same time five prisoners who had
broken jail and escaped were recaptured. They
had undoubtedly joined the brigands.

The Government authorities inform me that
they are not now aware of the existence of a
single band of brigands in this kingdom. But
to provide against possible danger from their
secret incursion into Greece they prefer to
furnish a military escort for persons who desire to travel any considerable distance to the
northward of the capital. This is done without
charge. The country is spursely settled, and
such protection is always desirable. Mr. Brewer,
United States Consult at the Piraens, accompanying two American citizens, is now making a trip
to Thebes, Deiphi, &c., and he telegraphed me
that there is no evidence of the existence of
brigands anywhere on this route, and that they
are overywhere most cordially received by the
people. A military escort accompanies them.

From the best information I am able to obtain, official and otherwise, I arrive at these
conclusions:

1. That at present there is no organized brigandage

1. That at present there is no organized brigandage in Greece. In Greece.

REAL ESTATE MARKET.

The summer season opened on Saturday with elightful weather, and the large amount of valuable roperty in Elizabeth to be offered at auction by J ohnson, Jr., attracted a fine attendance from the city s well as a good representation of New Jersey dealers. The property was laid out in plots 50x200, and was of-ered by the front foot, as is the custom in New Jersey. Wheteer New York buyers were not able to comprehend the method of calculation required to compute the amount periot, as their custom is, or whether the views of the owners were really above present values we cannot tell, but from some cause the bidding was not as spirited as experienced dealers anticipated, and at about a o'clock the sale was discontinued. Forty-five plots, or 180 lots in all, were sold, varying in price per front foot, according to location, from \$10 to \$41, realizing an aggregate for the \$5 plots of nearly \$55,000. It was believed by New York dealers on the ground that if the property has been put up by the lot, New York has been put up by the lot, New York has been put up by the lot, New York has dealers and the standard that has a stand it the layers were from New York, and seemed only ready to compute that \$50 per front foot for lots 20 feet deep was \$500 per city lot, and the average of the property sold ran above that amount. The question is simply not what property will be worth in a city so thriving and pushing as Finabeth—for of its advance in value no one doubts—but, under all the circumstance, is it now really work hay more than it brought? Fifteen hundred persons were in attendance, from all directions around New York. The sale had been well advertised, and the property was in good condition. The weather was diightful, and the arrangements to render the occasion pleasant were perfect. Nevertheless, the verdict was that shout \$50 per front foot is the average value of such lands at this time. In a few years more the average will of course be greater.

It is not a very many years ago that the map of New York city ended at Fourteeth street, and we know parties who refused lots on Union square, when it was first laid out, at \$70 cach, and on Fifth avenue at \$1,000, and the property at that time would not have sold at action for those prices. It is a conviction with experienced dealers that when a hundred or more buyers with greater or less knowledge are brought into competition at a fair square auction sale of a parcel of property, the amount realized will be as near its current. inaugurate a series of unusually interesting suburban sales for the month. Today (Monday J. Johnson sells 500 lots at Astoria, L. I., by order of executor Sam, Stevens. On Tuesday, J. W. Gibson sells 150 lots in the Surteenth Ward of Jersey (1t) (West Bergen). It is appeared property, finely located, and less than three miles from Walstreet. From beasy and less than three miles from the New Jersey Central, between Granford and Westheld. The sale of this property was discontinued May 37 on account of the storm. On Tuesday also is the regular pleasant excusion to Taifoure Lawo, under the ministry of John C. Schooly. Alex Boyd will sell, under direction of Capers, Clark & Co. a handsome residence and nine villa plots in Grange, N. J., in full view of Orange Mountain and Lleweliya Fark.

On Wednesday J. Johnson, Jr., will sell Sie desirable lots near the station of the Finaling and North Sice Raifroad, Long island, in the popular preclits of Whitestone, and on Satirday will continue the sale of villa plots and village lots at Darling, Comp., interrupted by storm in May. For particulars of all of which see adstorm in May. For particulars of all of which see advertising columns.

Among the important city sales announced for the week, we call especial attention to the advertisement of Muller, Wilkins & Co., of a desirable dwelling house on the north side of East Thirty-minth street, No. 141, between Lexington and Third avenues. The neighborhood is excellent. The building is a four-story English basement, sixty feet deep, first story brown-stone front, balance brick; has all modern improvements, is well finished, anoglin good order. Persons desiring a picasant city residence, in an unexceptionable neighborhood, will do well to attend this sale at the Exchange today, at il o'clock. The same from will sell fourteen lots on Avenue A and Eighty-second street, one lot on Ninety-eighth street and Fourith avenue, and one tenement house on Leroy street.

tock Exchange grows "amaller by degrees and beauti fully less." To-day the duliness was enhanced by reason of the fact that under the new rule all dealings ceased at 8 P. M. The opening day of the Jerome Park races also contributed its influence, and as the speculators on the Exchange are ardent devotees of the turf, the double advantage was taken, which, in consequence, caused the attendance at the Boards to be very limited. At the "send off," as the turfites have it, the market was strong; but later, in some instances, a slight yield was moted, though subsequently prices reacted, and the whole market assumed a strong tone. In the afternoon, trade was positively at a standsrill, and the fixchange might have closed at midday without the slightest detriment to buyer or seller. The Government bond market closed strong at about the best figures of the week, and nearly the highest of the season. The case in money, the firmer tone of the cold premium, and the strength of the London market combined to make prices very strong. Henry Clews & Co., 32 Wall street, report at \$4 P.M.:

The gold market opened with a good show of strength, most of the sales being at 1144, though 114 was momentarily touched. The heavy import entries and the unexpectedly large spece supments influenced the market and stimulated a fresh advance in the price to 1144, the highest quotation of the week. Credentials of a Great Remedy. The preventive and curative merits of a standard antidote to many painful and harassing diseases cannot be summed up in a few lines. A column would not suffice to set forth half the virtues of the great American restorative, Hostetter's Stomach Bitters, which for twenty years has taken precedence of all other vegetable preparations as a tonic, a nervine, an anti-billous medicine and a medicinal stimulant. The public know invigorant, a cure for sick headache, a specific for flatulency and sour stomach, an appetizing stomachic, an excellent blood depurient and a certain remedy for inermittent fever.

Dr. Pitcher's Castoria

Is a substitute for castor oil, and has the most remarkable effects ever produced by any remedy. Unlike oils, pilis, or narcotic syrups, it is pleasant to take; does not nauscate the stometh or gripe the lowels; on the contrary, it assimilates the food, and is sure to physic where the bowels are out of order. We have the record of many instances of sudden relief where the bowels have not moved for five, ten, and even twenty days, and where constant vomiting had existed, with violent congestion sid serious fevers. It contains neither mineral, morphine, nor alcohol, and is equally adapted to adults and children. It acts like magic for stomach-ache, wind-colidren, it acts like magic for stomach-ache, wind-colid, constipation, &c. Every family should have it. We know what the Castoria is, and desire that physicians and nurses shall thoroughly test it. We will furnish such persons without charge.
